

Issing Sid visit cancelled

Regretfully, due to transport problems, it has been decided that the visit of Issing Sid from Statfold to the Lea Bailey Light Railway for the open days on May 19th and 20th will not now take place. We apologise for the short notice of the cancellation and would like to emphasize that the open days will still take place with 'Whistling Pig', the Eimco 12B and 24 rockershovels and Simplex 21282 in action, plus Richard with his Holman rock drill working to produce rock for the 12B to load. Unfortunately the late cancellation has left no time to arrange an alternative visiting loco.

Would you please note that the deadline for inclusion with the xxxx 2018 Newsletter is the xxt xxx 2018.

Submissions are welcome that would be of interest to members of the LBLRS. These can be forwarded to me as text/disc by post or you can email or telephone. If you require anything returning please ask. Photographs, plans and drawings are acceptable as long as permission has been given by the copyright owner.

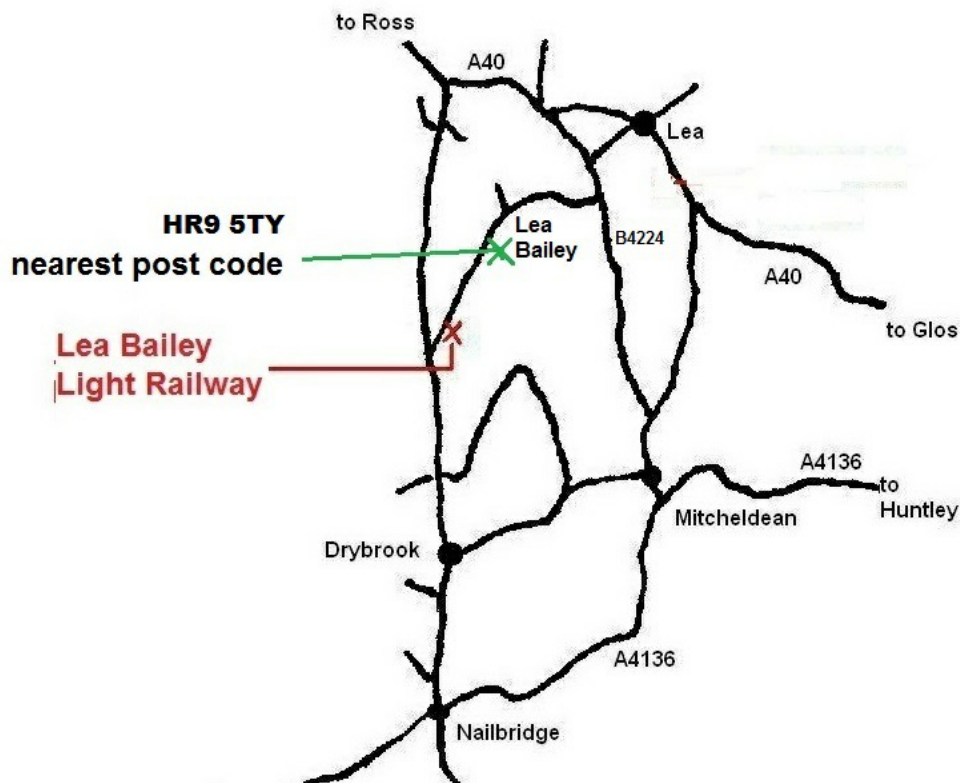

Each day it is planned to give a short demonstration of operation of the Eimco 24 at 3.30pm

Operation of the Eimco 12B and the rock drill will continue from 11am each day.

Driver for a fiver will be run each day with either the Simplex or Whistling Pig as available.

To answer questions as to the post code for the railway, I have to say that it does not have one. But if you have to use satnav to find us, the post code HR9 5TY will get you to within a few hundred yards of the railway. Hopefully the above map makes it clearer. If, from the B4224, you take the signposted Drybrook road through Lea Bailey, you will find the railway on the left just before the T junction with the Ross to Drybrook road. If I haven't confused you too much, hope to see you at our railway at Lea Bailey .
